SPRINGFIELD DEVS

Introducing Springfield DEVS

Springfield Devs is a non-profit organization and successor to SGF Web Devs. Our mission remains the same -- to provide hands-on learning opportunities for all people interested in software development. We have been hosting and recording educational events for 30-60 developers each month for the past 5 years. Our new "Dev Night" event format features social time with food, drinks, developer-related news and announcements followed by 2-4 concurrent breakout sessions featuring developer-focused educational topics. Sessions are broadcast/published online.

Sponsorships

Does your organization have an interest in attracting and/or educating local highly-motivated software developers? Help us promote and cultivate our local developer community by becoming a Sponsor of Springfield Devs.
